

Attendees from the Promotional Products Associations International SPARK Conference put together 250 hygiene kits as part of their service project while in Denver, Colorado. The hygiene kits included conditioning shampoo, a razor, shaving cream, lotion, deodorant, and soap. Each one also included information on how to access resources through Mile High United Way's 2-1-1 call center along with a hand-written note of encouragement. Thank you PPAI for supporting Mile High United Way and our local community. Together we #liveunited!
